### Technical Characteristics

#### Vanity tops manufacturing (22 mm):

Compact natural stone vanity top custom machined to the furniture models and combinations with vanities from the Uniiq series.

Compact natural stone

This is a product that perfectly combines nature and technology. Composition of 95% natural crushed marble and 5% resins and colourant.

The vanity tops come with a  $\varnothing 70$  machined hole in the right position for the sink and 3 pre-marked  $\varnothing 35$  holes to each side for using a tall tap.

These need not be drilled when using a wall tap.
