3. DESIGN YOUR SPACE IN 4 STEPS

1. Choose the shape of your bathroom layout.

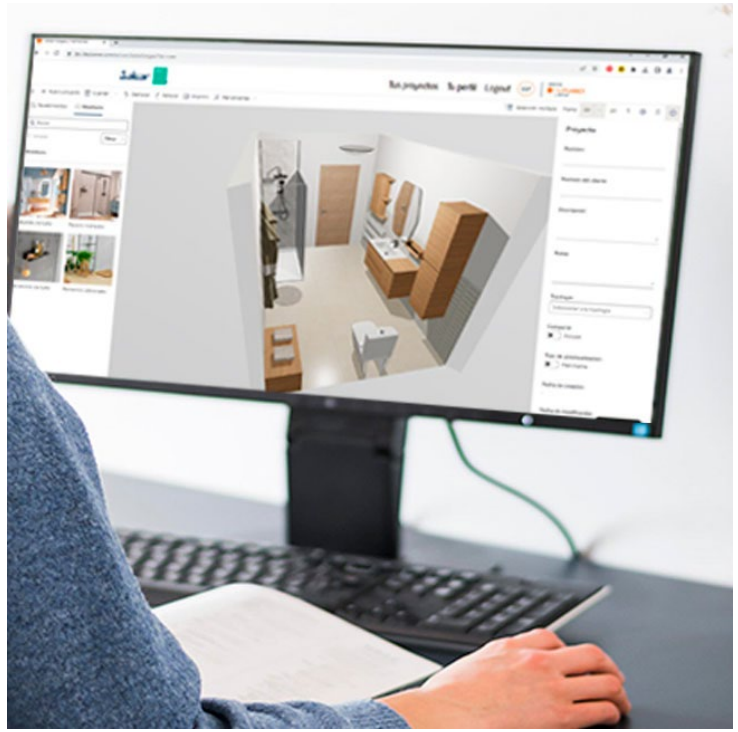
- When accessing the configurator, you will see a predefined room that you can easily modify.
- Select each wall and enter its exact measurements or add walls by modifying the shape of your room.
- Place the doors and windows in the indicated location in your bathroom, as well as fixtures, heating, switches. These elements are within the category "Additional elements".

3. DESIGN YOUR SPACE IN 4 STEPS

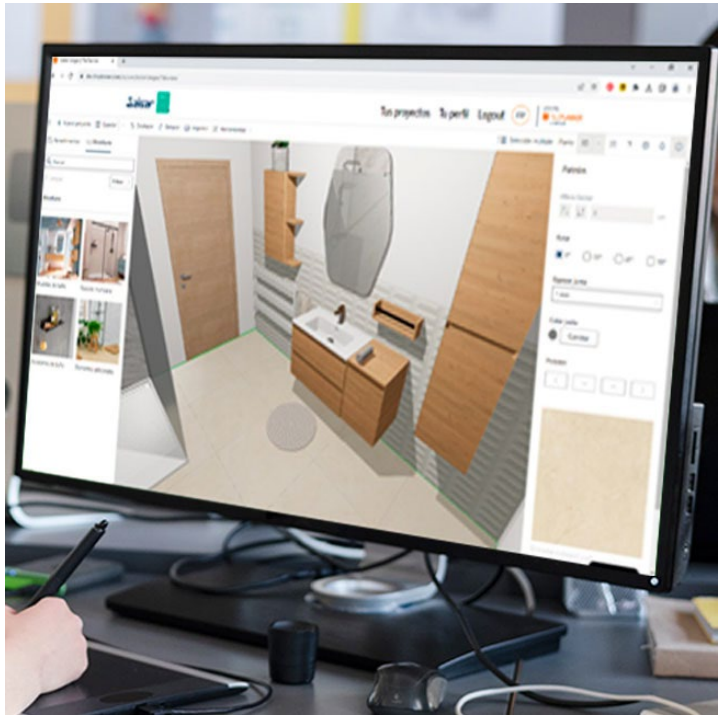
2. Add elements



- In the sections "Bathroom Furniture", "Shower Space" and "Bathroom Accessories", you will find all the products available in the Salgar catalog.
- Start by selecting the bathroom furniture and vanities that fit your preferences. Once selected, in the right menu you can indicate the sink or countertop you want to install, as well as the finish, legs, or handle. In this same menu, you can choose the position of the furniture and accessories.
- Continue adding to your space the shower enclosure of your choice. Once added, on the right menu you can select the door opening side, the profile finish, and the shower tray you prefer.
- Finally, in the accessories category, you can add mirrors, cabinets, and accessories. In the right menu, you can choose the position of the added object in your room.

3. DESIGN YOUR SPACE IN 4 STEPS

3. Give realism to your stay



- It's time to add realism to your space by choosing the materials and finishes for the walls, ceiling, and floor. In the top left menu, you will find the option Coatings" which will show you the different types of materials available. Once you have selected the material, drag it onto the desired wall or floor.“

- Continue adding realism to your stay by including decoration, lighting, or heating in the "Additional Elements" category within "Furniture".
